RECOGNISED CONTRACTORS LIST FOR CUSTOMER INITIATED AUGMENTATION WORKS

This Recognised Contractors List is provided on the basis that the customer has exercised their option to seek alternative prices for the Augmentation Work associated with providing an electricity supply to their property.

Powercor does not provide any warranty in regard to the contractors included on the following pages of this list. The contractors have met minimum electricity industry skill requirements to undertake the work. Inclusion on this list does not imply competency or capability beyond the minimum skill requirement. Nor does inclusion on list imply any comment on the business skills and practices or quality of the contractors listed.

A customer using this list to seek quotes and subsequently engaging a contractor will need to ensure that the contractor is "Recognised" for the particular type of work required. The customer will be directly entering into the contract to provide the services required with the Contractor. Powercor will not engage the contractors on behalf of the customer. The contractors listed on the following pages can not undertake live work on the Powercor distribution system when engaged by the customer.

Categories of Recognition

The following categories of recognition will be available.

UNDERGROUND WORKS		OVERHEAD WORKS
--------------------------	--	-----------------------

Project Manager or Principle Contractor

PM2	Project Manger, Major		PM2	Project Manager, Major
PM1	Project Manager, Minor		PM1	Project Manager, Minor

Design Contractors

U2	Reticulation Designer		O2	Line Designer <i>(now not available)</i>
U3	Reticulation Draftsperson		O3	Line Draftsperson <i>(now not available)</i>
U4	Public Lighting Schemes - Design		O4	Line Survey <i>(now not available)</i>
			O5	Public Lighting Schemes – Design <i>(n.n.a.)</i>

Construction Contractors

U5	Cable Laying/Handling		O6	Substation/transformer Installation - ground type
U6	LV Cable Jointer (See Note 3)		O7	Substation/transformer Installation - pole mounted
U7	HV Cable Jointer (See Note 3)		O8	Linesperson for work on LV. (See Note 3)
U8	Substation installation (Kiosk)		O9	Linesperson for work on HV. (See Note 3)
U9	Cable Testing (U9L - LV, U9H - HV, U9B - both)		O10	Public Lighting Schemes - Construct
U10	Cable Detailing <i>(now not available)</i>			
U11	Linesperson for work on LV. (See Note 3)			
U12	Linesperson for work on HV. (See Note 3)			
U13	Substation Installation - Indoor and ground type <i>(now not available)</i>			
U14	Public Lighting Schemes - Construct			

NOTES

Project Management

The primary purpose of Project Management recognition is to ensure that contractors involved in the management of the design and construction of electrical infrastructure on behalf of the customer, which becomes the property of Powercor have the necessary skills and systems in place to deliver a project that conforms to all standards and is completed in a timely manner. We also require that there is a single point of contact with Powercor for all matters relating to the activities of the project.

Detail of the roles and expectations are detailed in our document - **Recognised Contractor for CIAW – Project Manager** (31/10/2008)

Project Management (PM1)

Nominated by the customer/client for minor type projects –

- underground and/or overhead reticulation up to 22Kv for a single customer with a load up to 500Kva
- underground and/or overhead reticulation up to 22Kv for a domestic/commercial/ industrial development up to 5 lots but excludes any staged developments

Project Management (PM2)

Nominated by the customer/client for major type projects –

- underground and/or overhead reticulation up to 22Kv for a single customer where the load exceeds 500Kva
- underground and/or overhead reticulation up to 22Kv for a domestic/commercial/ industrial developments for 6 or more lots including all staged developments
