Comprehensive Supply Chain Services

- **Comprehensive Services**
 - Procurement
 - Contract Management
 - Warehousing
 - Distribution
 - Job Lotting
 - Strategic Spares
- **Customer Service**

As a Network owner Powercor understands the needs of other electrical infrastructure businesses better than others. We take the time to get to know our clients and customise our services to meet the your individual needs
- **Delivery**

Powercor understands that delivering what you want when you want it is of critical importance. Material availability at our distribution centre is over 97.6%. We keep our customers informed about where materials are and when they will be delivered
- **Range**

Our range of services means that your electrical & telecommunications infrastructure needs can be handled in the one place, saving you time and effort
- **Network Accredited Materials**

Powercor customers can be assured that materials supplied to them will meet the rigorous reliability standards required of a Network owner.
- **Competitive Prices**

We offer savings achieved from our buying power. We purchase over \$120 million of materials and \$150 million of services per year
